Hazardous Weather

Hazardous Weather

Breezy, Very Dry, and Warm

Weather Forecast Office
Lubbock, TX

Winds northwest at 15-25 mph will shift to the northeast in the afternoon, becoming 10-15 mph. Issued Apr 17, 2022 2:36 AM CDT

A weak disturbance will pass overhead today with a surface low moving across the region. Breezy, northwesterly winds around 15-25 mph will develop later this morning and transition to the northeast this afternoon while diminishing to 10-15 mph. Elevated fire weather conditions are expected this afternoon across the Caprock and Rolling Plains. A Fire Danger Statement is in effect between noon and 7 PM CDT.

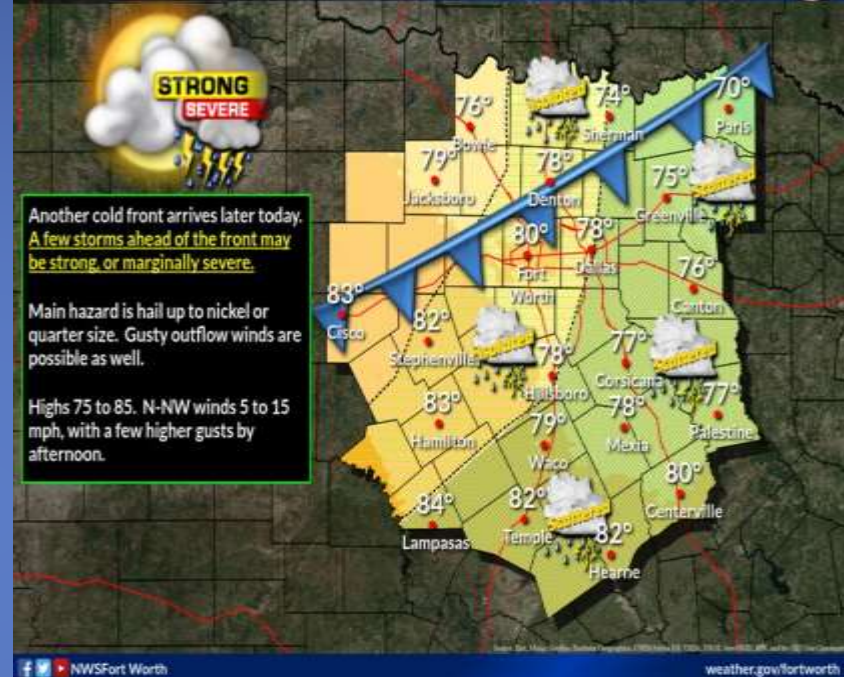

Today (Sunday)

Weather Forecast Office
Fort Worth, TX

Isolated - Scattered Tstorms With Another Cold Front

Issued Apr 17, 2022 4:42 AM CDT

Another cold front arrives later today. A few storms ahead of the front may be strong or marginally severe.

Main hazard is hail up to nickel or quarter size. Gusty outflow winds are possible as well.

Highs 75 to 85. N-NW winds 5 to 15 mph, with a few higher gusts by afternoon.

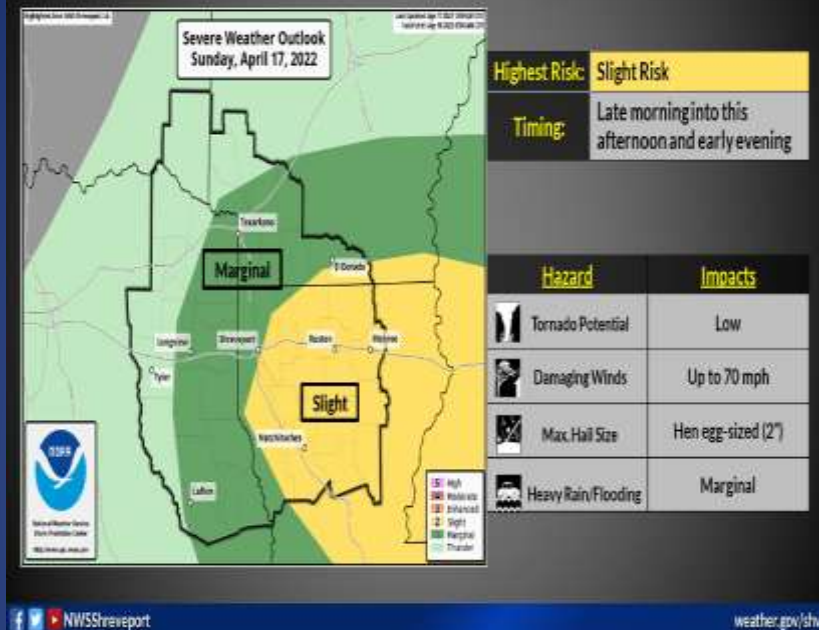

There is a chance of showers and storms for your Easter Sunday, mainly across the east/southeast third of the forecast area. A storm or two may become strong with small hail and gusty winds, and an isolated severe storm is not totally out of the question with hail up to quarter size being the primary threat. If rain occurs, it probably won't last very long, and most of the day should actually turn out pretty nice with highs in the 70s East to the lower 80s West. Northwest winds 5 to 15 mph will prevail, with possible higher gusts later this afternoon behind today's cool front.

Hazardous Weather

Severe Weather Risk - Today

Valid through Mon 7:00AM CDT

Weather Forecast Office
Shreveport, LA
Issued April 17, 2022 5:20 AM CDT

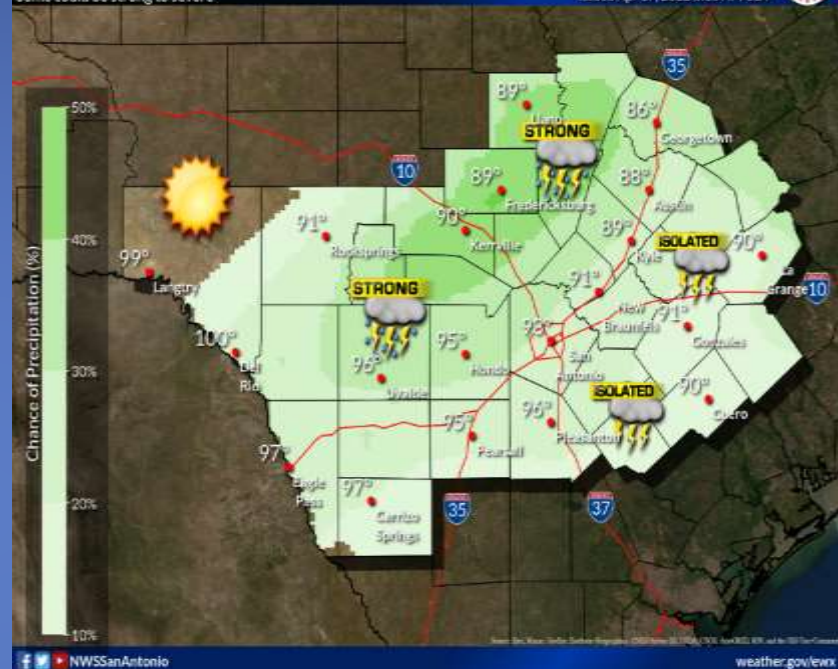

There will be a threat of more severe thunderstorms today, mainly across portions of South Arkansas and North Louisiana where a Slight Risk is highlighted by SPC. Damaging wind gusts, large hail up to 2 inches in diameter, and isolated tornadoes will all be possible with storms developing from late morning through the afternoon hours.

Scattered Afternoon Storms

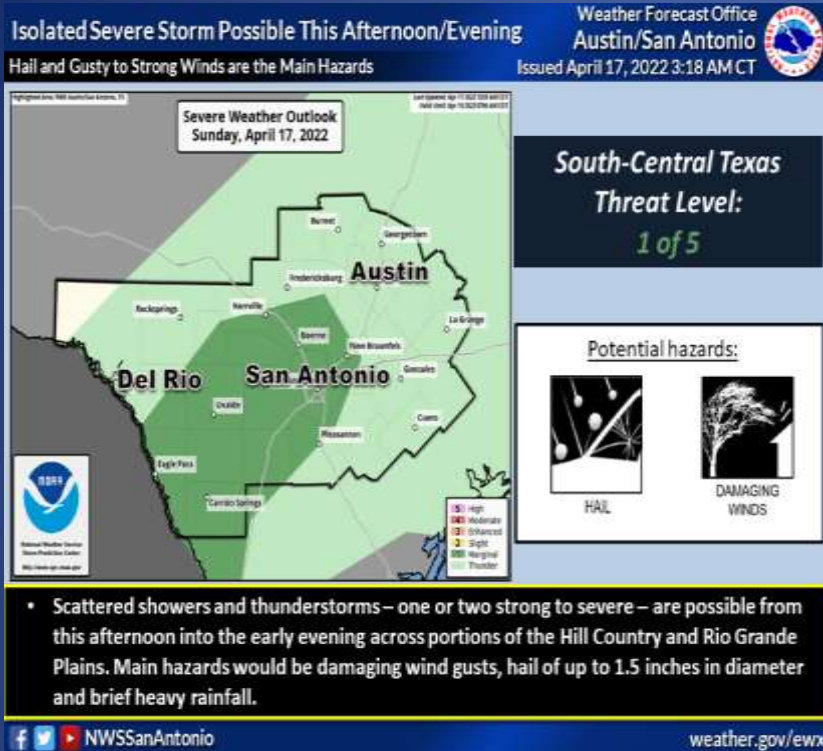

Some could be strong to severe

Weather Forecast Office
Austin/San Antonio, TX
Issued Apr 17, 2022 3:10 AM CDT

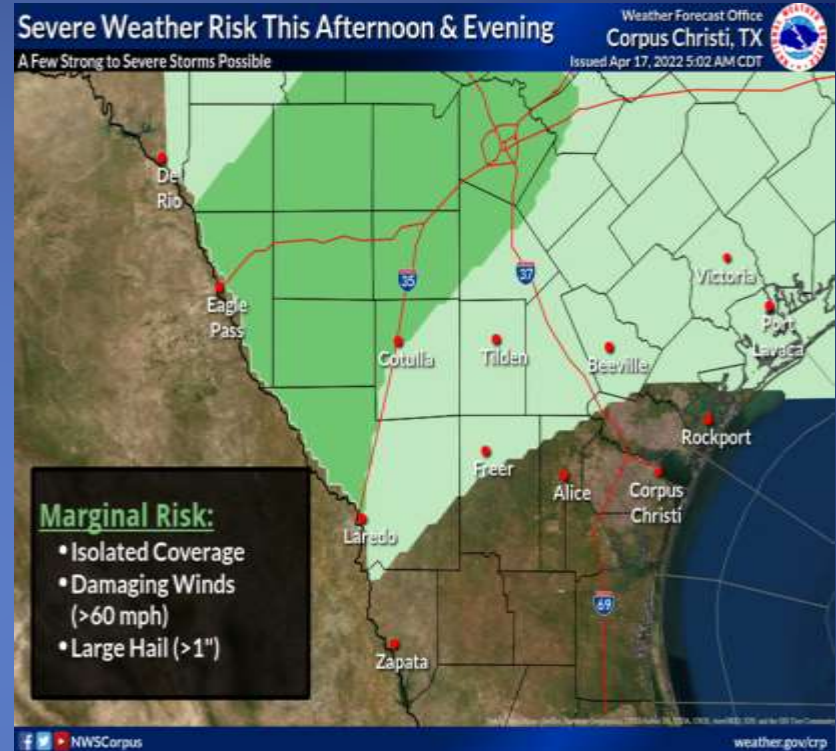

Scattered showers and storms will be possible mainly in the Hill Country. Some of these could be strong to severe. Highs today will top out in the lower 90s to near 100 in the west.

Hazardous Weather

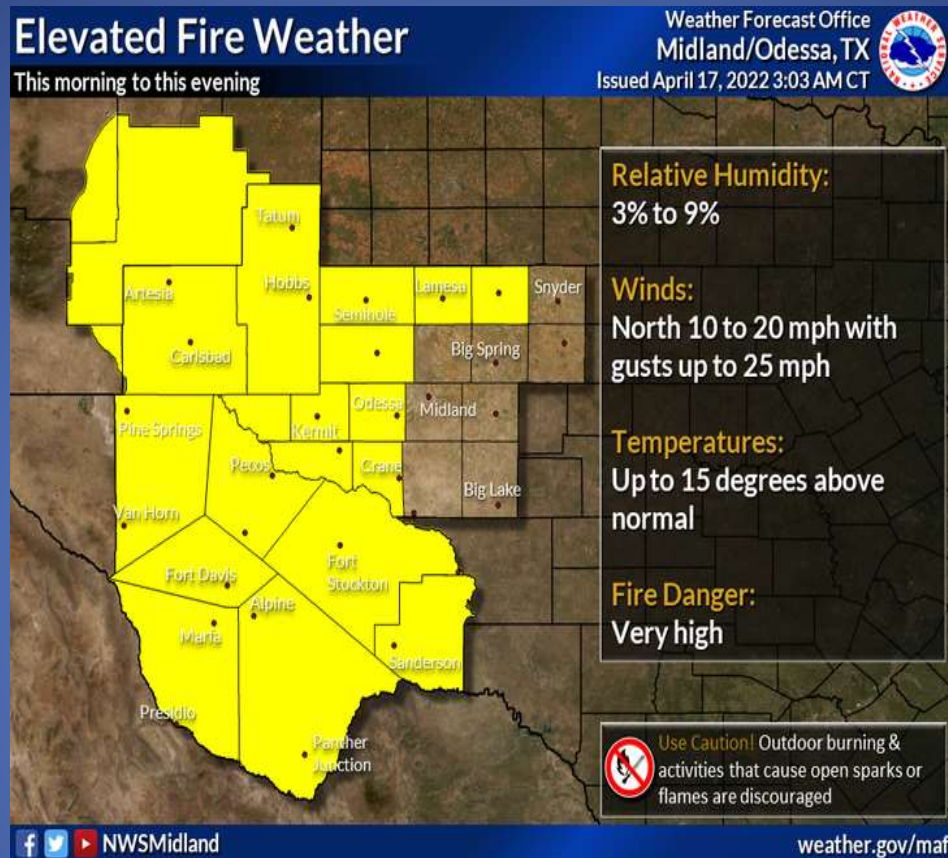

A Marginal Risk (1 of 5) is in effect for areas in dark green today across portions of the Hill Country and Rio Grande Plains. Some strong to perhaps severe storms with large hail and damaging winds will be possible this afternoon and evening.

There is a Marginal Risk (1 of 5) of severe storms across the Brush Country this afternoon and evening. The main threats are large hail and damaging winds. Make sure to have multiple ways to receive warnings today!

Hazardous Weather

Elevated fire weather conditions are expected today across Southeast New Mexico and most of West Texas.
